2020 Media Kit
ABOUT APPrO

APPrO is a non-profit trade organization representing Ontario’s independent power producers and related businesses. Our membership is made up of more than 100 companies involved in the generation of electricity in Ontario, including generators and suppliers of equipment as well as legal and consulting services. Twenty two of APPrO’s generator members produce 50% of Ontario’s electricity from clean and renewable sources including co-generation, hydro-electric, gas, nuclear, wind energy, waste wood, and solar.

Only APPrO focuses 100% on the business issues of power producers in Ontario. APPrO members build independent power projects and are premier electricity suppliers in Ontario, across Canada and elsewhere in the world. Our varied membership provides an all-inclusive view of the market and positions APPrO as the leading advocacy group for generators in Ontario, giving voice to all parts of Ontario’s generation sector.

APPrO PROFILE

APPrO offers unique and high-value promotional opportunities for advertisers seeking to expand their visibility in the Canadian power market. With a membership that includes most of the top level senior managers, consultants and other industry experts, APPrO provides access to vital connections through an array of information sharing options, resources and events.

IPPSO FACTO MAGAZINE

IPPSO FACTO has offered its readers highly relevant information and commentary on the latest happenings in the power industry for over three decades. Each issue outlines news and diverse perspectives about current developments in the industry, interesting projects, policy analysis, information about new and emerging technologies, news from APPrO and general industry advice.

As the leading publication of the power generation business in Canada, it is the foremost journal read by senior business leaders, utility executives, energy professionals and government officials concerned with generation in Canada. IPPSO FACTO is well respected, trusted, and relied upon for relevant reporting and analysis of developments in this rapidly changing market. It is often the only source for precise information on certain crucial developments behind the scenes.

IPPSO FACTO readership includes key decision-makers at significant companies – people in positions who can make a difference. IPPSO FACTO reaches the major power generators of Ontario across all technologies, institutions, all levels of government, service suppliers, and other industry stakeholders - all of whom will be eager to learn about your company.

Digital Files: Preferred format is a high resolution (300dpi) PDF file, provided all the fonts are embedded, and all colour is in CMYK mode. Other acceptable formats are Adobe InDesign and Adobe Illustrator files, CS4 version, if all graphics and fonts are also included; and eps files if all fonts are converted to curves. Colour reproduction is generally reliable, but advertisers critically concerned about colour accuracy should provide a hard copy proof. Publisher assumes no responsibility for accuracy when a proof is not provided.
Complete your strategic marketing plan with an integrated B2B solution that works. Reach our highly focused target audience through the Online presence of Canada’s leading power generation association.
